

ARE YOU INTERESTED IN THE FIELD OF HEALTHCARE?

Join the Junior Auxiliary Program at Butler Memorial Hospital.

The Junior Auxiliary Program is an excellent introduction to the field of healthcare.

Students who are interested in the medical field often find volunteering at a hospital beneficial. The goal is to provide students who are possibly interested in healthcare with an environment and opportunity to learn, help others, build friendships, and give back.

You will have exposure to various departments, roles and functions in the healthcare setting.

Applications are being accepted now for the Junior Auxiliary Program at Butler Memorial Hospital.

Additional information about the program is available on the application.

You must be entering grades 11 through 12 in the fall to be eligible and 16 years old by June 1.
